

SCRIBE 120X40 U SERVO

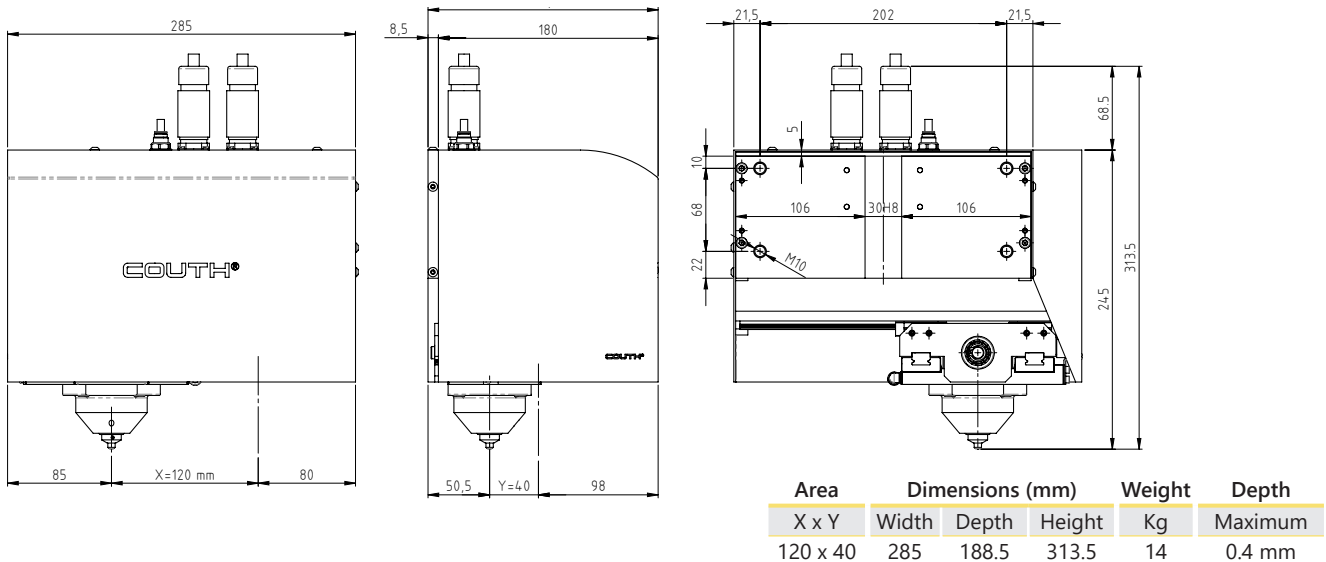

INTEGRABLE · SCRIBE MARKING

- Scribe marking unit, **silent and powerful**, for **deep, quick marking**. Especially designed to be integrated into production lines, and marking for pieces to be treated later (blasting, machining, grinding, painting, etc.) and VIN marking in the automobile industry.

ADVANTAGES

- **Silent**, improves comfort in the working environment and for the operator.
- **Very deep marking**, up to 0.4 mm.
- **High marking speed**, for all kinds of materials and hardnesses up to 62HRC.
- Great **reliability**, uninterrupted productions and lower maintenance costs.
- Highly **robust and long-lasting**, thanks to the high quality of its components.
- Mark verification with **encoders**.
- Circular connector that **facilitates assembly and disassembly**.

CHARACTERISTICS

- 120 x 40 mm marking area.
- Mark depth, up to 0.4 mm.
- Up to 6-bar air pressure.
- Speed up to 12 characters/second.
- Hardness of materials to mark up to 62HRC.
- Wide range of characters, from 0.1 mm to complete area.
- Marking alphanumeric codes, logotypes, DATAMATRIX[™], QR codes, etc.
- R50 marking cylinder.
- Optional protection system with bellows.
- Built-in encoders to verify the mark.
- Circular connector that facilitates its maintenance.
- 2.5-meter robotics cable, with customisation possibilities.
- Connection with **COUTH SPECIAL SERVO** control units for integration in production lines (see technical file for more information).
- PC edition software.
